

TRADITIONAL AND
CONTEMPORARY STYLE

COMPOSITE DOORS

A STUNNING AND SECURE ADDITION TO ANY HOME

Superior looks and performance from one of the UK's leading home improvement manufacturers – this is the VEKA composite door.

Our composite doors offer all the traditional good looks of timber without any of the drawbacks. While timber may crack, split or warp and of course, need regular sanding and re-painting, uPVC requires very little maintenance and offers all the security, performance and long-life expectancy of modern materials.

The tough GRP surface is highly scratch-resistant and will help it keep that 'new look' finish through its long life. This is mounted onto a composite material sub-frame, supported by laminated timber stiffeners and pressure filled with energy-efficient foam. The outer edge of the door is protected with a hard wearing uPVC strip that provides a neat and durable finish.

Security of valued possessions and protecting loved ones are the main priority of any homeowner. Our composite doors have been designed to exceed even the most stringent of expectations. This is why we have incorporated a number of security features as standard.

All VEKA composite doors are fitted with the neat and unobtrusive 2DC butt hinge designed with longevity in mind, these robust, precision-engineered hinge allow lateral and horizontal adjustment by the removal of the interchangeable cover caps and come in a choice of 9 colours.

- As standard the threshold is 70mm uPVC but this can be altered to an aluminium low threshold with the option of a wheelchair friendly ramp.
- Upgrade to Autolock AV2 or AV3 Heritage door lock for an automatic locking door which throws the hooks and deadbolts, making your home instantly secure.

2DC Butt Hinge

AV2 Heritage Door Lock

ABOUT VEKA

The VEKA UK Group have pioneered the design and manufacture of window and door systems for over 30 years. With a continual investment in VEKA and Halo profile systems the brands are now some of the most technically advanced on the market. A 10 year guarantee on all products, gives the added confidence that once fitted VEKA and Halo products will last for years to come. Just a few of the reasons why they are now one of the most specified uPVC systems in the world.

A fantastic addition to the entrance of any home, with a wide selection of styles, glazing options and hardware, there is a combination perfect for your home.

YOUR STYLE AND COLOUR

The first decisions in designing your new front door are deciding on the style and colour.

- Choose from over 40 door designs.
- 46 colour options, including woodgrains and colour match option to any RAL colour.
- Supplied in a VEKA or Halo outer frame.

YOUR GLAZING OPTIONS

The glass you choose is as important as the style and colour. We have a wide array of glass designs perfectly suited for each type of door.

Choosing the right glass options can really be a focal point for your door.

YOUR HARDWARE OPTIONS

The hardware you choose gives your door its own individual look and is available in a wide range of colours.

Choosing the right hardware makes a statement about you and your home.

A MUCH MORE SECURE HOME

We've managed to strike the perfect balance with our doors, they look warm and welcoming to visitors, but be assured that they are fitted with top of the range hardware to provide a formidable barrier against any intruders to keep your home and loved ones safe at all times.

Security of valued possessions and protecting loved ones are the main priority of any homeowner. Our composite doors have been designed to exceed even the most stringent of expectations. This is why we have incorporated a number of security features as standard.

- Security hooks at the top and bottom of the door.
- Fitted with a neat and unobtrusive 2DC hinge, designed with longevity in mind; these simple hinges give the minimum of adjustment by the use of the removable covers and come in a choice of 5 colours.
- Ultion Diamond Secure Cylinder Lock supplied on all doors - details opposite.
- Optional upgrade available for PAS 24 certification - The security standard.

Our hardware specification is approved by MACO, a leading manufacturer of security locking hardware. Our composite doors meet the rigorous standards demanded for compliance to the MACO Secure Plus Scheme. This unique scheme recognises how home security is paramount and endorses products incorporating its locks by offering an independent guarantee and warranty.

Further Optional Upgrades

In addition to the standard security features that will be added to your door, there are a number of optional upgrades:

Secondary Deadlock - Upgrade to a secondary deadlock with thumbturn Cylinder that operates independently of the main lock. This is located at shoulder height and operated by a simple thumbturn, which throws a 20mm dead bolt into the frame for additional security.

Door Hinges - You have the 2DC hinge which is designed with greater adjustment for doors being fitted into older properties where it might be needed and it is also available. Available in 12 colours making it a fantastic option for outward opening doors.

Autolock AV2 & AV3 and Autolock AV2 & AV3 Heritage - Upgrade to an automatic locking door. This lock negates the need for a lever/lever door handle. You just pull or push the door closed with the bar handle and it automatically throws the hooks and dead bolt, making your home secure. When leaving your home or going to bed just simply turn the key to deadlock everything into position.

Secured by Design - Optional upgrades to Secured by Design with the addition of a number of security features. Just ask for 'Secured by Design' and we will make sure all the additional safety features to comply will be added to your door.

THE **ULTIMATE** IN DOOR SECURITY SUPPLIED WITH OUR DOORS AS STANDARD

Millions of doors in the UK can be opened quietly in under 10 seconds with normal tools. Even the most secure multi-point hook mechanisms are disabled when the cylinder lock is snapped.

Still protects when the key is inside the lock

Something many of us are guilty of is leaving the key in the lock on the inside. Even with the most snap secure locks leaving the key in the lock can completely remove any snap protection you thought you had. But not with the Ultion!

Attack forces lockdown mode

The moment that Ultion detects forced entry it activates an attack lock directly into the central cam, this is 'Lockdown Mode'. Even if the most determined intruder gets past Ultion's two sacrificial sections he won't get to the attack lock because it is protected deep inside a solid molybdenum core and secured with a dedicated retaining pin. When Ultion is in lockdown mode your home and family are safe.

This is why we have chosen to incorporate the Ultion Diamond secure lock with all of our composite doors. When the Ultion detects attack a hidden lock automatically engages. Even in lockdown mode it stops the intruder from opening your door.

Even after the failed attempt, your door can still be opened and locked from the inside.

The Ultion has been rigorously tested, nothing has beaten it. Not even the finest 3 star locks, making the Ultion the most secure lock on the market.

For more information on Ultion and the benefits visit:
www.ultion-lock.co.uk

If an intruder
snaps Ultion
and breaks into
your home,
Ultion will pay
you*£1000.

MACO SECURE PLUS SUMMARY OF BENEFITS...

Installations including MACO products are covered by the Secure Plus Guarantee Scheme upon registration.

- 10 Year Security Guarantee
- 10 Year Product Warranty
- Home Insurance Savings
- Excess Cover
- Replacement Product Cover

WHAT IS SECURED BY DESIGN?

Secured by Design

Official Police Security Initiative

Secured by Design is the official UK Police flagship scheme which recognises products incorporating effective crime prevention solutions at the design stage and only awards accreditation to products which pass their stringent testing.

www.securedbydesign.com

Specifying 'Secured by Design' on your order ensures your door will be manufactured to the ultimate security specification for complete peace of mind and protection of your home.

THERMAL PERFORMANCE

Composite doors are much more thermally efficient than either timber or PVC, and our doors are manufactured to the highest quality standards, making them more thermally efficient by design.

The warm foam core allows the door to have a significantly better 'U' value than traditional timber doors, PVC skinned timber doors and steel doors, and our entire range meets with the requirements of the current Building Regulations.

There are various upgrades to glass options which increase the thermal performance of the door. The combination should keep your home warmer and could help reduce your energy bills.

DESIGN AND VIEW YOUR PERFECT DOOR...

With such a wide selection of styles, colours, hardware and glazing options available for your new door, it can sometimes be difficult to visualise what you need. Our door designer lets you see just that and even lets you upload a picture of your home to see exactly how your choices will look in reality.

You're the Designer

Choose your style, then your colour, completely change the look with the various glazing options and then complete the look with your choice of hardware. Don't leave it to guesswork, we can show you exactly how your choices will look in your home with our online designer. We'll take you through the choices, upload a picture of your home and superimpose the door you have designed to ensure your choice complements it perfectly.

There are so many combinations that it's often difficult to know which ones are right for you until you see it in place. Make sure you make the right choices by designing your ideal door on our door designer.

TRADITIONAL DOORS

The range of traditional doors are designed to replicate the most popular timber doors and come with highly defined mouldings and realistic wood-grain embossing on the surface. Whether used in a Victorian home, a modern townhouse or a farmhouse cottage, these doors always add to the appearance of the entrance.

These doors are transformed by the choice of decorative glass and colours, with 40 door colours available and a huge range of glass options, from the simple diamonds of Classic, through to the stunning multi-faced bevelling and black chrome coming of Reflections, these doors can make a real statement.

SIDE LIGHTS

For larger openings, a range of sidelights to complement your door are available (see page 63). With a range of decorative and complementary glass choices, sidelights are designed to be an integral part of your entrance.

GLAZING OPTIONS

Colour and coming options are available on certain glass designs (see page 57). These are illustrated in the brochure by the these icons:

Colour
Option
Available

Coming
Option
Available

DOOR HARDWARE

A range of traditional and contemporary door hardware is available to complete the look of your door (see pages 60, 61 & 62).

DOOR COLOUR OPTIONS

Standard Colours

We offer a range of 8 external colours with a white interior as standard. Coloured both sides is available as a cost option.

Premium Colours

Our range of 38 premium colours are created using state-of-the-art coating technologies as used in the yacht industry. The paint has been prepared to the recommended gloss level which range from a Semi-Matt, Satin or Semi-Gloss sheen dependent upon colour.

RAL Colours

Any RAL colour is available as a special order.
Here are the most requested colours as an example:
